

WHY?

Is everyone moving to PrintFactory

The digital print industry isn't evolving... It's **consolidating**. And the businesses that move first win the most.

5-6 DISCONNECTED TOOLS

→ **ONE Unified Platform**

The industry is **consolidating** fast. PrintFactory is at the center of it – replacing the patchwork with a **single, seamless system** built for **modern print production**.

Before

Multiple logins. Incompatible tools. Constant switching.

After

One platform. One login. Everything connected.

Your Biggest Cost Isn't Ink & Media

It's what you waste.

Every reprinted job, every miscalibrated color, every idle hour – these are your real margin killers.

Ink Waste

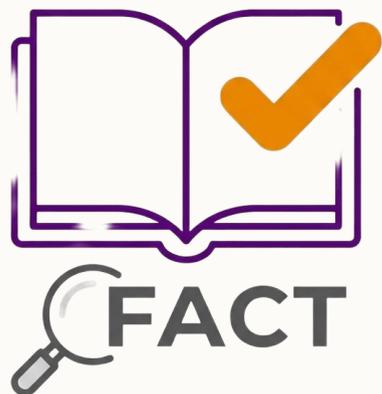

Unoptimized ICC profiles burn through ink fast

Time Waste

Manual setup and rework drain your team daily

Rework

Color mismatches cost you jobs and client trust

Users Save **3-4× the Cost** of the Software Every Year

And that's just in ink.

Add in faster setup, higher throughput, and less waste – and the ROI is undeniable.

3-4×

Ink Savings ROI

Saved annually vs. software cost

40%

Less Setup Time

Faster job prep, front to back

Zero

Wasted Rework

Color accuracy you can count on

From Chaos to Total Control

Disconnected tools. Patchwork workflows.
Hidden inefficiencies.
PrintFactory replaces all of it.

One System

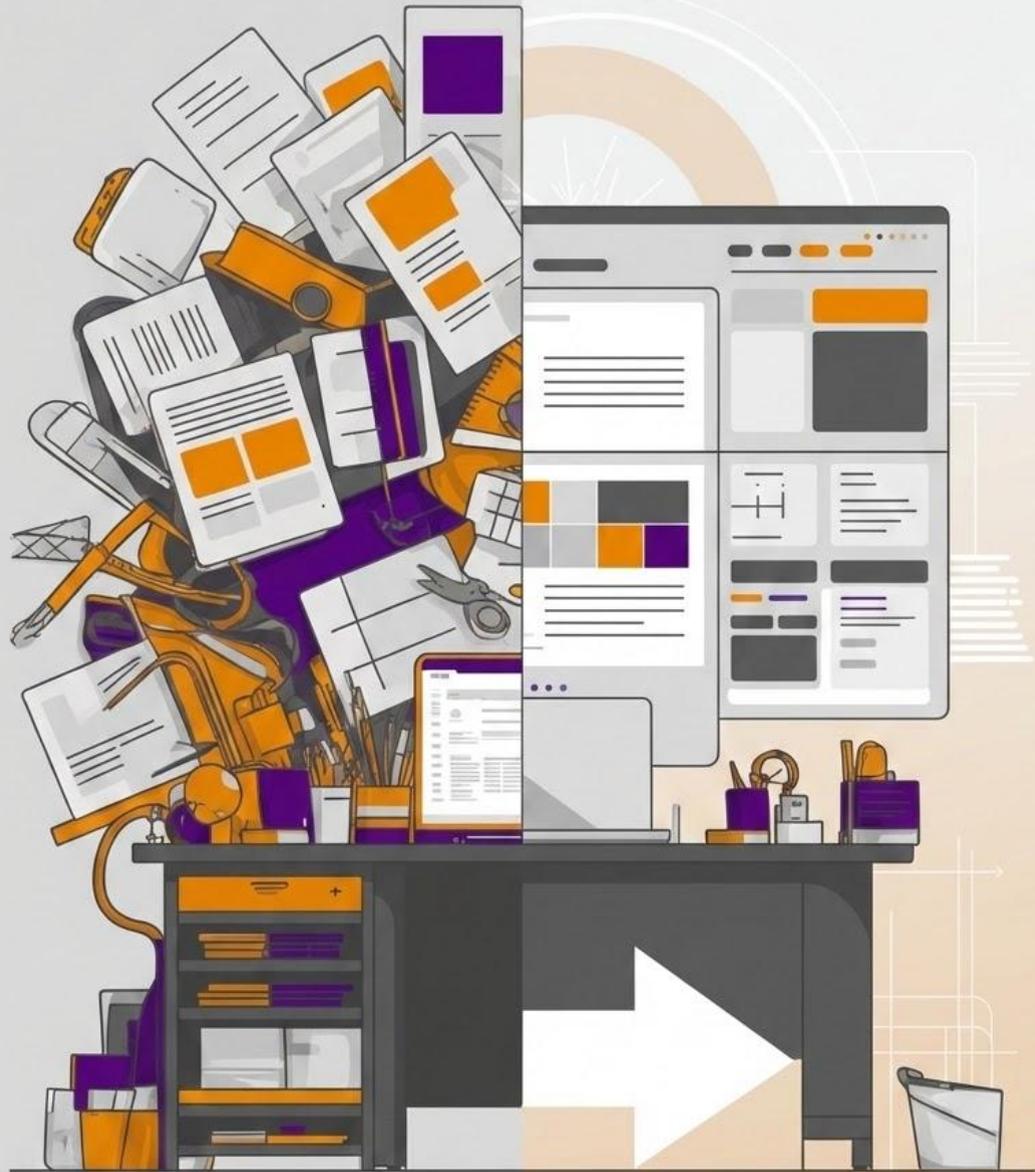

Everything lives in a single,
unified environment

One Workflow

From file intake to final
output — no gaps

Total Control

Full visibility and command over every job

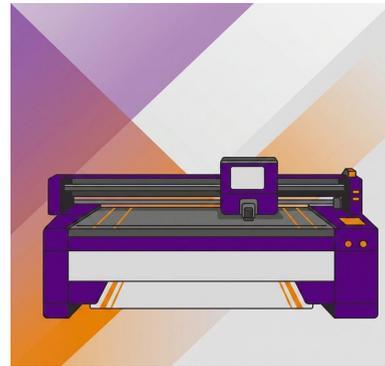

One Platform. 4,900+ Printers & Cutters.

Mixed fleets. **No compromises. No inefficiencies.** Just smooth, **connected production** – regardless of your hardware.

Wide Format Printers

Every major brand. Fully supported.

Cutters & Finishers

Seamless cut data. No manual intervention.

Textile & Specialty

Soft signage, textiles, specialty substrates.

Mixed Fleets

Manage all devices from one unified hub.

Speed = Profit

The fastest RIP engine on the market – processing 4 jobs simultaneously per printer.
Every second saved is revenue earned.

More Throughput

More jobs out the door every shift

Less Idle Time

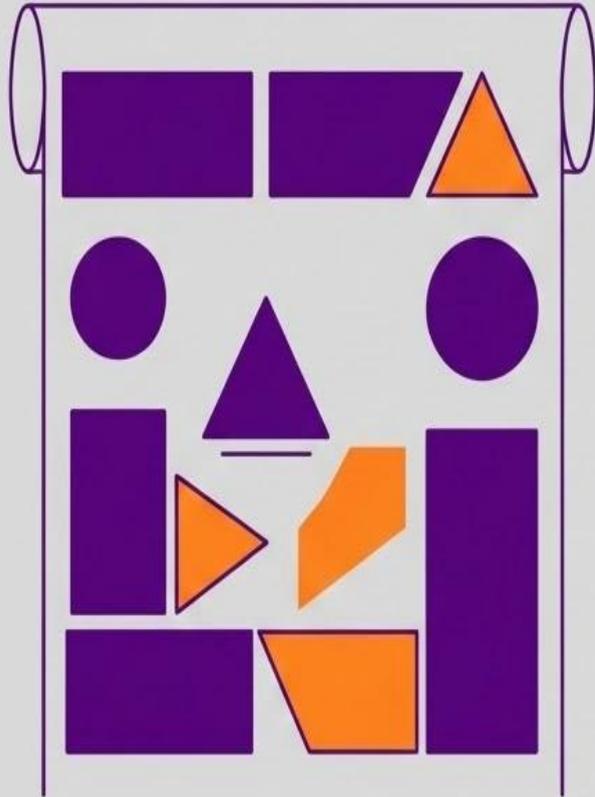

Printers stay running, not waiting

Faster Turnaround

Win more jobs with tighter deadlines

BEFORE NESTING

BEFORE SHOWS WIDE GAPS AND WASTED SPACE BETWEEN CUT SHAPES ON ROLL MEDIA

AFTER TRUE SHAPE NESTING

AFTER SHOWS TRUE SHAPE NESTING WITH TIGHTLY PACKED SHAPES, MINIMAL WASTE, MAXIMUM COVERAGE PER ROLL

Stop Wasting Media

True Shape Nesting + Just-In-Time Cloud Nesting

Forget rectangular bounding boxes. PrintFactory nests by actual shape – squeezing more jobs onto every roll and slashing your media cost immediately.

More Jobs Per Roll

Maximize every inch of substrate

Less Waste

Cut material costs from day one

Instant ROI

Savings visible on your first job

The Industry Is Moving.

Are You?

PrintFactory users aren't just saving money – they're outpacing competitors, taking on more work, and running leaner operations every day.
