

PrintFactory®

A Kornit Digital Company

From Chaos to Control

PrintFactory - The
All-in-One Unified
Print Production
Platform

**“ Transform fragmented print
workflows into a streamlined,
automated production
environment. ”**

printfactory.cloud

IS YOUR PRINT WORKFLOW TOO COMPLEX?

Many print businesses rely on a collection of disconnected tools and systems.

This creates unnecessary complexity and inefficiency across production.

Common Challenges

- > Multiple RIPs and software systems
- > Inconsistent color output
- > Manual file preparation
- > Production bottlenecks
- > Ink and media waste
- > Costly print errors

Result

- ✗ Lost productivity
- ✗ Rising operational costs
- ✗ Frustrated operators
- ✗ Inconsistent print quality

One Platform. One Workflow. Total Control.

PrintFactory replaces fragmented tools with a single unified production platform designed for professional print environments.

Instead of managing multiple systems, everything works together in one ecosystem.

PrintFactory combines:

- RIP
- Color management
- Editor
- Layout & nesting
- Workflow automation
- Cloud management

All designed to simplify production and increase efficiency.

All-in-One
Unified Platform

Everything you need to run
your print production.

Take control of your production

PrintFactory brings visibility and automation to every stage of the workflow.

Key Capabilities

Automated Prepress

Prepare files faster and eliminate repetitive manual tasks.

Smart Job Preparation

Edit, prepare, and nest jobs in one environment.

Production Visibility

Monitor printers, jobs, and workflows across your operation.

Cloud Connectivity

Access and manage production from anywhere.

Better Printing Bigger Profits

PrintFactory helps you produce more efficiently while reducing costs.

Key Benefits

Advanced Colour Management

Consistent colour across printers and media.

Ink Optimization

Reduce ink consumption without compromising quality.

Reduced Media Waste

Smarter nesting and production control.

Fewer Reprints

Tools like Output Inspector help detect problems before printing.

Result

Lower production costs

Faster turnaround times

Higher margins

The PrintFactory Guarantee

PrintFactory is designed to deliver measurable improvements in your production workflow. We guarantee a smarter, more efficient print production environment.

Our Promise

- ✓ **Consistent color across devices**
- ✓ **Lower ink and media usage**
- ✓ **Faster job preparation**
- ✓ **Reduced production errors**
- ✓ **Transparent pricing**

Our smart print solution saves ink, media, and time, ensuring that PrintFactory quickly pays for itself.

Take control of your print production today. Request a demo or trial.
